With our delicious, award-winning pizza being our signature product, we want you to experience the love we put into it before you enjoy it!

Fresh. Everyday. We make the dough that is the foundation of our special, oven-fried pizza. This happens at every DeFelice Bros. Pizza Store and the dough is NEVER frozen.

We start with our signature sauce, made with fresh-packed tomatoes grown in California. Our private label is canned within six hours of harvest. Our pizza is baked once with sauce, then cheese and other toppings are added before being baked a second time.

"The Old World Way!"

And the toppings we put on your pizza? From proprietary products made exclusively for DeFelice Bros. Pizza to vegetables diced fresh daily in our stores, we use only quality ingredients. This is how we make our pizza **"The Pizza Worth Going After!"**®
